WAGNER'S REVIEW. Closing Stock Letter. New York, Oct. 25.—For no particular reason, the market was

lull season stocks showed good rally. Power after the early setback. Selling pressure was light. Probably the chief influence was the announcement that President Wilson would keep prior engagements for speech one of which is at Mobile. It had been said that on account of the serious Mexican situation he might cancel these appointments. The later advice were taken to mean less tension over Mexico. Should it prove true that Great Britain intends to back down, with utterances of its Mexican minister, this would afford a basis for the improved sentiment in Washington today. This may account for the late buying in stocks today.

Morning Grain Letter. Chicago, Oct. 25.—Wheat cables unchanged to 1/4 lower, firm considering our weakness at the close. The best informed export connection have persisted in claiming enormous business during the past week for export in Canadian wheat. As outlined yesterday we do not care to follow the market now on advances, much preferring waiting for small depressions to buy on. We continue to feel favorable.

Corn cables 1/4 higher. Broomhall states the pressure at docks has been relieved and Argentine has advanced its prices. There is a big fight on in corn between leading interests and never was sentiment on a cereal so mixed as at the present time. Good people with opposite views. We continue to see encouragement in our belief of husking returns cutting down farmer crop estimates and advise purchases.

Oats—Decidedly healthy feeling, mainly among local operators influenced by high prices paid at country points competitive with Chicago. Good shipping demand and believe that Canadian competition at present offers unusual opportunities for investment.

Provisions—Hogs, 10,000; strong; full 5c up. Top, \$8.30.

Liverpool Situation. Liverpool, Oct. 25.—Wheat: The favorable showing of Modern Millers report and Bradstreet's weekly exports caused realizing at opening. Later shorts covered on a private report of light American shipments to Liverpool this week and with the good consumption here and free takings by the continent and former Russian offers and former Manitoba offers, prices easily advanced.

Corn—Shorts covered freely. The pressure at the docks has been relieved and former distant offers of plate steamers and the good consumption speculators supported market.

Many Market Influences. Wheat—Many influences at hand today favoring the buying side, such as enormous clearances for the week, big export demand for Canadian wheat and a moderate movement, but as the market has been advancing for several days, a reaction naturally followed, we consider wheat on a healthy merchandising basis, and favor purchases on breaks like today.

Corn—Features were mainly strong, southwestern advances, and improved demand for old corn here. Considerable profit taking on the bulge responsible for late decline. Our views remain unchanged.

Oats—Oats show remarkable strength in face of heavy selling for long account. Eastern buyers report

excellent demand, also decrease in California offerings. We prefer waiting for further decline before buying.

Provisions—Light hog run induced considerable investment buying. It may be too early to advance prices seriously, but that provisions will sell considerably higher by early spring, we are confident.

Stocks—We believe industrial conditions are slowly improving. Good buying has been noted in the stock market. The floating supply of leading shares is unquestionably small. The slack will be taken out of the market every once in awhile, just like it was Tuesday. One day's session recovered three weeks bear campaigning. On depressions steel, copper and St. Paul should be sought. Southern Pacific has great possibilities on the bull side.

Cotton—The cotton market is now backing and filling. A bearish maneuver may carry quotations off 15 to 20 points anytime; contrariwise bullish activity will result in a quick upward spurt. Spot houses are buying cotton and seem glad to get it. We do not look for any material setback, and any dip such as above mentioned should be taken advantage of to buy. Frank Hayne says the crop will not be over 14,000,000 bales and consumption will be over 15,000,000 bales. Keep a little long cotton on hand.

THE GOLDEN HORSESHOE. That Was the First Order Founded in This Country.

How many persons have ever heard of the Order of the Golden Horseshoe, the first order founded in America?

In 1774, when Virginia extended from the Atlantic into the unknown west, few of her colonists had crossed the Blue Ridge or the Alleghenies. So full of dangers from savages and wild beasts and so full of natural difficulties was the passage of these terrible heights that Governor Spotswood, setting out to discover a pass, looked on the expedition as so hazardous that he took with him a guard of "soldiers, gentlemen and pioneers," armed and carrying provisions. These scaled the pass with great hardships and perils and returned after the governor had cut the name of King George in the rocks on the highest peak.

He then constituted the society, or order, of the Golden Horseshoe. Each man who had scaled this high pass was made a member of it, and to each one he presented a golden horseshoe. On

A WORD WITH WOMEN. Valuable Advice for Argus Readers.

Many a woman endures with noble patience the daily misery of backache, pains about the hips, blue, nervous spells, dizziness and urinary disorders, hopeless of relief because she doesn't know what is the matter.

It is not true that every pain in the back or hips is trouble "peculiar to the sex." Often when the kidneys get congested and inflamed, such aches and pains follow.

You can tell it is kidney trouble if the secretions are dark colored, contain sediment; the passages are too frequent or scanty. Then help the weakened kidneys. Don't expect them to get well alone.

Doan's Kidney Pills have won the praise of thousands of women. They are endorsed at home—Read this Rock Island woman's convincing statement:

Mrs. G. Cook, 1221 Third avenue, Rock Island, Ill., says: "I have used Doan's Kidney Pills with highly satisfactory results and am pleased to recommend them. They act just as represented."

The above statement must carry conviction to the mind of every reader. Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Cook had—the remedy backed by home testimony. Fifty cents, all stores. Foster-Milburn company, proprietors, Buffalo, N. Y.
